THE WEEK IN SOCIETY.

With the arrival of the New-York Yacht Squadron the race for the Goelet Cup on Friday, and the number of private entertainments given by the cottagers, Newport had a fairly lively week, and the present month in Berlin, but the authorities stopped it. The postdvances the promise of being socially one of the most tion of a man on a horse, Miss Coghlan says, is much brilliant known there for several years.

Bar Harbor, with a representation of the members

of the fashionable world, has come well to the front this season as a place where there have been much gayety and considerable promise for the future. An especially happy incident of the week at the resort of the coast of Maine was the german given in honor of Miss Mamie Pomeroy, daughter of Mrs. Charles Coolidge Pomeroy, of this city, by Mrs. Wallace Shillito, on Tuesday evening, at Kebo Valley. There was a large gathering of all the most desirable people summering in the neighborhood, besides a number of the officers in full-dress uniform of the United States warships Enterprise, Philadelphia and Petrel, and chored in the barbor, and a lively german was danced in which some pretty favors, consisting of Japanese fans, umbrelias, dolls, small chairs, Turkish pipes, of the fashionable world, has come well to the front natural. She is not quite satisfied yet as to safety. fans, umbrellas, dolls, small chairs, Turkish pipes, ws and arrows, paddles, and toy monkeys, were distributed. A remarkably effective and pretty figure was one in which the favors were pea-green flowers. Pomeroy wore a gown of white tule and silver A few of the guests were Mr. and Mrs. Barney, Mrs. Nicholas Fish, Miss Fish, Miss Gurnee, A. C. Miss Leary entertained the young couple at dinner on the evening before.

A gay incident of Monday night at Newport was the Casino dance, which was attended by many of the tiest of gowns. There were also many men present, and as the night was delightfully pleasant, the piazza was much frequented between the dances. Some new and beautiful gowns were worn, and there was a number of handsome jewels displayed by the young married women. Mrs. James F. D. Lanter and Mrs. J. Low Harriman, her sister, were in black lace. Mrs. H. W. McVickar was radiant in red tulle; Mrs. Nathaniel Thayer wore a rich gown of white satin and tulle; Mrs. Howard Potter was in black and mauve silk and crepe; Mrs. William Jay was in black lace and steel; John W. MR. MOODY INVITED TO SCOTLAND.

RESOLUTIONS ADOPTED AT THE NORTHFIELD CONFERENCE AGAINST SUNDAY OFEN-

ING OF THE WORLD'S FAIR-East Northfield, Mass., Aug. 8 (Special),-At the close of the morning sessions of the Rible conference to-day Mr. Moody told the people to spend the afternoon in recreation, to get away from those who were always talking religion, and suggested that they go driving as usual. His wishes were obeyed, and the liveryman was happy. The Rev. Dr. Theodore L. Cuyler, of Brooklyn, pronounced the benediction this evening. The morning prayer service was led by the Rev. Dr. Meyer, of Lendon Dr. Hamlin, of Washington, offered a resolution regarding the Sunday opening of the World's Fair, which he supported in a brief address. The resolution was as follows:

Twelve hundred Christian workers, representing all parts of the Union, and nearly all religious denominations, assembled in conference at Northfield, Mass., August 9, very respectfully request the managers of the Columbias tion, to be held at Chicago in 1803, to keep the gates of said Exposition closed on the Lord's Day. In so requesting we are not unmindful of the value of the Ex to workingmen, nor do we wish to deprive them of the privileges and advantages. But we beove that they will have ample access to it on secular ys, and we further believe that the opening the gates on the Lord's Day would work vastly more injury to the laboring classes than would be nsated by any good that they could possibly gain.

After Dr. Hamlin's resolution had been adopted, Mr. Moody, on behalf of the conference, was requested to send it to the directors of the Exposition. John Smith, Professor Moxey and G. C. Thompson, all John Smita, Processor anoxey and G. C. Thompson, all of Edinburgh, came to this country on a commission to invite Mr. Moody to visit Scotland this fall, if pos-sible. Mr. Smith read the memorial seat from his native land, and said that there were 2,500 names at-tached. It originated at Edinburgh. Among the signers were Lord Palworth, the Countess of Aber-deen, Sir William Muir, principal of the University of Edinburgh; Dr. Robert Rainey, principal of New th; Dr. Robert Rainey, principal of New Dr. John Calris, principal of the United rian College and moderator of the Free issembly; Dr. Mareas Dods, Professor Henry ad, J. STILL HUNTING FOR THE MURDERER.

HANNAH ROBERTSON HAD AN UNKNOWN COM-

The mourners came accompanied by the Prayer was offered. The burial was in Mount Olivet Cemetery, in a grave which was bought by the dead girl's relatives, as the buried could not be found. The mourners were Mr. and Mrs. George Chell, Mr. and Mrs. William Laws, Mr. and Mrs. Kerr, all near relatives. The coffin

Another clew to the identity of the murderer was furnished by the running away of a horse. The animal was caught in a field of blackberry bushes, pear where the body of the murdered girl was found, and a party men rambling about the field found some letter which, to all appearances, were dropped by the fleeing murderer. The letters were at once given to District-Attorney Flemming, who will not talk about the matter The name of the writer is said to be Wallis, and a photograph in one of the letters is the portrait of the murdered girl, with a young man sitting beside

It is believed that the girl left home in the expecta tion of meeting her lover, as her nervousness in the station at Hewletts and her conduct on other occasions that evening, which have been already remarked upon, would denote. It was in a struggle to obtain justice, apparently, from the man who had betrayed her that Hannah Robertson lost her life. On previous occasions it is known that she was deserted by a man named George Smith, a blacksmith. He cannot be

At a meeting of the Town Board of Newtown on Friday night Justice Brandon called attention to the fact that the brutal killing of Hannah Robertson was the last of a number of murders that had been committed within the border of the town, and that in no one case had the murderer or murderers been brought to justice. Justice Brandon thought that the Town Board should take prompt action, and offered a resolution that a reward of \$500 should be offered for the arrest and conviction of the murderer or murderers of Hannah Robertson. The resolution was promptly adopted.

TO TEST THE TWELVE-INCH GUN.

SPECIAL POWDER PREPARED FOR IT TO BE USED. The twelve-luch gun which has been at the proving

grounds at Sanday Hook for some time will not be fired until some time this week. The kintal or castiron block which holds the carriage in position is out of order, and that is the only thing which now interferes with the proposed tests. The tests made some time ago were not entisfactory on account of the high explosive has been made by Dupont & Co. It was shipped to the proving grounds at Sandy Hook about a eek ago, and no soon as the repairs are made to the gun carriage the tests will be continued. The powder recently used ignited so rapidly that

the strain upon the gun caused by the explosion was confined to the breech. The strain was estimated to be 30,000 pounds to the square inch, with a charge of only 125 pounds of powder The gun, however, can easily stand a charge of 1,000 pounds of powder, if the explosive is of the right pounds of powder, it the explosive is of the right consistency, that is if if does not burn too quickly or too slowly. When it burns too quickly the strain is all in one place, and when it burns too slowly the projectile leaves the mouth of the gun before the power of the explosive is exhausted.

The Ordinance officers at sandy Hook hope that the new powder, which they will probably test this week, will possess the quality so much dealerd. Powder used in one gun with success does not, however, give a satisfaction when used in a larger, or smaller gun.

The new service of Yonkers local trains on th York Central and Hudson River Railroad, which goes into effect to day, provides additional facilities for the benefit of the great number of business men who live in the commutation district. This new service provides an additional service of twenty-four trains be tween Grand Central Station and stations in the commutation district. For this improved train service new "double-ender" engines have been constructed. These engines are entirely different from the ordinary engines. They have a pair of leading wheels, six driving wheels, and a six-wheel truck. The bolices have been constructed to carry the high pressure of 180 pounds per square inch. Every modern improvement of any value has been embodied in these engines and it is expected that the new suburban service will be as nearly perfect as modern appliances can make it.

THE CROQUET TOURNAMENT.

PREPARING FOR THE NATIONAL MEETING O THE NEW GROUNDS AT NORWICH.

Norwich, Aug. 8 (Special).-The National croque purnament opens in this city at the association's new grounds on Dr. John A. Rockwell's "state on Mon day, and is to continue all the week. The groundare bandsome and spacious, amid beautiful surroun ings, in the northern part of the town. about half an acre in size, and are enclosed within a tall wooden picket fence. About \$1,200 has been spent in laying them out, and eight of the ten courts have just been completed. They are fine ones, hard level and finished, and with a low rubber border (after the Western style), that is intended to send wandering balls back into the field. A shed has been built in one part of the grounds for the players and their baggage, with a grandstand for spectator facing the court, but it is only a substitute for handsome pavilion that is to be erected later. Twenty clubs have announced their purpose to send gates to the meeting, and two new clubs will have representatives this year, those of Middletown, Conn., and Waltham, Mass. All the old-timers will engage in the prize contests; among them being Professor Jacobus, Dr. Reid, Germand, Johnson, Greenslitt, strong, General Harland and Bishop,

of lectures were delivered in the Broadway Taberman, in the winters of 1882-33 and 1883-34. These loy electures have been prepared with great care, and many of them by our forgmost thinkers.

"The lecturers have represented the following coleges: Howardin, City of New York, Columbia, Dickmon, Emory, Hamilton, Lafnyette, Rutgers, Friady, Faits, Smita, and St. Stephen's, and the following interestites: Boston, Cornell, Harvard, Newyork, North Carolina, Pennsylvania, Princeton, Fexas, Vanterbilt, Virginia, Wisconsin, and Yale. In addition to the presidents and professors, some intellectual men in business circles have contributed to the Riterature called forth by the Institute, among them the distinguished explorer Horinizal lassam, of England, and the acute thinker, han Chandra Rose, of India. These valuable productions of the Institute have been issued periodically and low constitute eight large octave volumes, of which in MacLanchen, chancelor of the University of the Taty of New York, and professor of philosophy, says: The lectures and magazines it (the Institute) five acity year are almost themselves a faculty of graduate officion of the whole country. It is the only hour of its kind in America. Possessing, in its perfection of resources, all the advantages possible in a place of public entertainment, it yet insures unto its guests the composure and refining attributes of home life. In everything that contributes to make it desirable as a place of public resort—in its management, furnishings, arrangement of suites, sanitary appointments, advantages of location and convenience to amusement and travelling facilities, cuising suites, sanitary appointments, advantages of location and convenience to amusement and travelling facilities, cuising and service—it is unsurpassable, while, blended with all these, it insures to its patrons that repose and tranquillity associable with the most perfect conditions of domestic life. The blending of these attributes, hitherto unknown in this country, is an innovation which has met with such distinguished approval as to call for some departure from that exclusiveness which made these advantages available only to those making terms by the menth or year.
